

MACD ADMINISTRATION

SHARPEN YOUR IT EXPENSES

WHAT DOES MACD ADMINISTRATION ENTAIL?

From strategy to execution, Acculus supports all your MACD needs. You can let experts handle the entire MACD, handle a partial segment, or just utilize consulting on specific issues. With nearly two decades of MACD experience and hundreds of satisfied executives, you can trust Acculus's process.

WHAT DOES THE PROCESS LOOK LIKE?

Acculus first seeks to understand your priorities. Once efforts of both parties are aligned, technical visibility is needed. Then, Acculus molds a field-tested MACD process to your situation; using best practices to facilitate a cost-effective solution.

WHY IS IT IMPORTANT?

By entrusting these tasks to a skilled professional, you ensure that all adjustments are executed accurately, securely, and in line with industry best practices. This not only minimizes the risk of costly errors or downtime but also frees up your internal team to focus on core business functions, driving growth and enhancing overall performance.

WHAT IS ACCULUS'S TRACK RECORD WITH MACD?

In 2022 alone, Acculus has supported ~70 unique MACDs so far, including approximately 46 MACs with a combined value of ~\$480K in expenses.

HOW LONG DOES IT TAKE?

Depending on the size of the order and the needs of your company, it will take 4 - 16 weeks from the initial kickoff meeting. **Ongoing support.**
